Projects

QuickEats – Online Food Ordering Website | *HTML, CSS, JS*
- **Developed a responsive food delivery website** allowing users to browse restaurants and view menus.
- Implemented dynamic cart functionality using JavaScript with **Local Storage** to add, remove, and update items efficiently.
- Designed a clean and mobile-friendly UI using HTML and CSS, ensuring smooth navigation across devices.
- Optimized website performance with efficient DOM manipulation and minimal external dependencies, enhancing user experience.
- Deployed the project on Netlify, enabling live access and showcasing the complete front-end functionality.

NexaAssist - ChatBot with mini Assistant | *HTML, CSS, JS*
- **Developed an interactive chatbot with Mini Assistant** using HTML, CSS, and JavaScript for front-end functionality.
- Implemented dynamic chat system allowing users to type questions and receive instant automated responses.
- Integrated Mini Assistant features including quick command recognition and helpful suggestions to enhance user interaction.
- Maintained chat history and session persistence for smooth user experience.
- Uploaded the project on GitHub, enabling access to full front-end source code and showcasing functionality.

Certifications

- **Front-End Web Development Certificate – KG Coding (2024):** Completed hands-on projects and exercises covering HTML, CSS, and JavaScript to build responsive and interactive web pages.

- **C++ Programming Certificate – Itronix Solutions (2023):** Demonstrated proficiency in C++ fundamentals, object-oriented programming, and problem-solving through practical exercises.
