Professional Summary

Passionate MERN Stack Developer skilled in React.js, JavaScript, Node.js, Express.js, MongoDB, REST APIs, JWT Authentication, HTML5, CSS3, and Tailwind CSS. Experienced in developing responsive full-stack web applications, integrating APIs, and implementing authentication systems. Completed a 3-month Frontend Developer Internship and gained practical understanding of full stack development workflow and backend concepts.

Education

Bachelor of Science in Computer Science	2026
<i>Sagar Institute of Science and Technology, Bhopal</i>	<i>CGPA: 7.1 / 10</i>
Class 12 - Amjad Ali Ghaznavi Intermediate College	2021
<i>Azamgarh, U.P.</i>	<i>69%</i>
Class 10 - Amjad Ali Ghaznavi Intermediate College	2018
<i>Azamgarh, U.P.</i>	<i>61%</i>

Technical Skills

Frontend: React.js, Context API, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS

Backend: Node.js, Express.js, REST API, JWT Authentication

Database: MongoDB

Programming Languages: C++, JavaScript

Tools: Git, GitHub, VS Code, Vercel

Concepts: MERN Stack, API Integration, Responsive Design, Authentication, Problem Solving, Basic DSA

Internship Experience

Frontend Developer Intern	Feb 2026 – Apr 2026
<i>NDMSK Technology Pvt. Ltd.</i>	<i>Onsite</i>

- Developed responsive frontend components using React.js, JavaScript, HTML, CSS, and REST APIs.
- Integrated frontend applications with backend APIs and gained practical understanding of full stack development workflow.
- Collaborated using Git and GitHub and gained knowledge of authentication, API handling, and database integration.

Projects

ShopNex – E-Commerce Platform (MERN Stack)

- Built a full-stack E-Commerce web application using MERN Stack with JWT authentication and REST API integration.
- Implemented shopping cart, product listing, protected routes, and responsive UI using React.js and Tailwind CSS.
- Integrated MongoDB database and backend APIs for seamless frontend-backend communication.

Expense Tracker (MERN Stack)

- Developed a MERN Stack Expense Tracker application with authentication and transaction management features.
- Implemented CRUD operations, API integration, MongoDB database handling, and responsive UI design.
- Managed income and expense tracking with secure user authentication using JWT.

Certifications

- Front-End Development Certification – KG Coding
- C++ Programming Certification – Itronix Solutions

Achievements

- Solved 250+ DSA problems on LeetCode and earned 50 Days and 100 Days coding badges.
- Developed multiple frontend and MERN Stack projects with API integration and authentication systems.
